Subject: Libel Reform in Scotland from a citizen of Australia

Dear Lord Pentland,

We are no longer looking to USA for guidance .

We see that the people's lives in Scotland and Britain are improving . So we can look to your legal system for guidance.

I see that ,in Scotland you are looking into Libel Reform.

Here in Australia, the fact that the public cannot find out what is going on, are kept in the dark about so many important things ,is abhorrent.

For Democracy to succeed, the people need lots of accurate information. And to know of suspicions of wrong doing ,and not be afraid of telling others What they have found.

As you can see we are especially interested in "The Creation of a statutory Public Interest Defence". Please make sure that ,if a verbal or written statement, Is given out so that we ,the public, are better informed The person doing so CANNOT BE TAKEN TO COURT.
